Hi Cindy,
I have attached the label approval form and the most recent copy of the marked up cylinder label I had. I received the April copy from you that Jim mentioned he thought was the last one but when I checked my Curfew folder I had a copy with a later date (June 23, 2009) that I had renamed to add "final per Baxter" with a July date.

I have attached that as well. I am thinking this is the one to use but should confirm with Jim. Thanks for your help. Anita
